Soft Skills:

Teamwork

Problem Solving

Communication

Creativity

Collaboration

Education/ Academics:

Full-Stack Flex Web Development Bootcamp Certificate

The Ohio State University: College of Engineering

July 2022 - January 2023

Projects:

- eCommerce Back-End Demo [\[repo\]](#): Using MYSQL, Sequelize, Express and Insomnia, to create, map and test RESTFUL API demonstrating Back-End ability.
- Team Board Generator [\[repo\]](#): Using MYSQL and Jest to create a CLI webpage displaying summaries for each employee within the team.
- Employee Tracker [\[repo\]](#): Using MYSQL, ExpressJS and NodeJS to create a CLI application where users are able to manage, manipulate and view employee information.
- [Happy Hour Log](#): This is a group project allowing users to post happy hour deals using NodeJS, ExpressJS, MYSQL and sequelize. We tested the backend using insomnia and deployed it on Heroku. The file structure followed the MVC model.
